## Report and Recommendations

June 9, 2015

Executive Officers:

In the Youth Committee's report for the 2014 Annual Report, I mentioned our recommendation that a couple changes be made to the "rules" governing youth races. They are:

1. One class only. The need for a "Youth I" and a "Youth II" class is unnecessary. (When there is a novice in a race he/she must still be coached prior to the race as before.)
2. Increase the number of boats to 3 per race/heat when all participants have previous experience. (Should a youth be racing for the first time the number of participants in that heat/race will be limited to two (2) drivers.)
3. One engine category, classic. Consisting of early and late classic engines.

This year's Urbanna Cup went extremely well. As in last years' races, both participants showed much maturity in their racing ability. I encourage the Executive Committee to consider implementing these changes before the next sanctioned regatta.
